Aditya Group of Institutions

Aditya Group of Institutions (AGI) has, in very short span, become one of the leading educational institutions in Mumbai. We believe 'Education' is the most powerful tool to bring about a desirable change in one's personality and to bring about positive changes in our society'. It is this medium that enables one to move from darkness to a world full of light.

AGI believes in creating a strong academic foundation for social, cultural, scientific and economic development of our Nation. We have deep-rooted values and our dynamic culture has made us achieve benchmarks in academic excellence and holistic grooming to help our students meet their career goals in the increasingly competitive and professional

environment. Aditya Group of Institutions has thus earned goodwill of all our stakeholders –students, parents, teachers, staff and society at large.

From the DIRECTOR'S Desk

Welcome to Aditya Institute of Management Studies and Research. Our Institute is amongst the leading B-schools in India and ranked 4th amongst the top 10 B-schools in Mumbai which has created a unique identity for itself by challenging conventional thinking and learning in the global market. The AICTE approved PGDM programme and the Mumbai University affiliated MMS programme are both known for their excellence in building leadership skills in more than 400 students each year.

A rich co-curricular experience complements a strong conceptual foundation through 100+ experiential learning opportunities spread across the duration of all programmes. Whether it is through creative problem-solving workshops, case studies, live projects or out bound training programmes, our faculty selects the pedagogy that's best for each course. Our faculty have been recipients of many distinguished awards and honours both

nationally and internationally. We also have an impressive roster of innovative industry speakers who share their experiences in events, seminars and workshops.

Our students are preferred by 200+ recruiters who seek to select professional managers who are ready for corporate life with technical knowledge and professionalism. The industry orientation is strongly developed by weekly Coffee Meets with the 1000+ responsive and engaged alumni who inspire and encourage students. These Alumni of the Institute are making a measurable difference in the industry.

Global perspective is encouraged through an international study tour which includes visits to local companies, business schools and some places of interest. In the year 2023, the Singapore tour enabled students to immerse themselves in another culture and experience the challenges and opportunities facing organisations outside India. Our focus is to develop our students as global citizens, with respect and appreciation for diverse cultures. They should become confident decision makers to take up leadership roles in future.

Wishing you luck to create meaning in every decision that you take!
